## IMPORTANT GOVERNMENT ORDERS

### CHIEF SECRETARIAT.

**Reviews the report on the Administration of Inam Villages and Estates under Government management during the year 1937-38.**

READ—

Letter No. A. 14—37-38, dated 26th November 1938, from the Revenue Commissioner in Mysore forwarding the reports received from the Deputy Commissioners of Districts on the Administration of Inam Villages and Estates under Government management during the year 1937-38, together with his review thereon.

ORDER NO. R. 2732-41—L. R. 236-38-2, DATED BANGALORE, THE 5TH DECEMBER 1938.

Recorded.

2. There were 222 villages and estates under Government management during the year under report against 229 in the year previous, the decrease being due to the exclusion of some of the estates belonging to minor Muzrai Institutions in Kolar District which had been wrongly brought under this head all along. Survey and Settlement have so far been introduced into 198 villages and estates. In the case of 8 villages, survey operations have been completed and early action should be taken to expedite the settlement work.

3. *Jamabandi Work.*—The Jamabandi of 217 villages was conducted during the year, that of 31 villages by the Deputy Commissioners and of 186 villages by the Sub-Division Officers. Of the 5 villages of which the Jamabandi has not been conducted, 4 villages are in the Bangalore District and the Deputy Commissioner has explained the circumstances under which the Jamabandi was not conducted. As regards the remaining village in the Hassan District, the Revenue Commissioner states that the Deputy Commissioner, Hassan District, has been asked to explain why the same has not been done. Arrangements should be made to obtain the accounts of Jodi Kalkere Village and conduct the Jamabandi of this village regularly.

4. There was improvement in the disposal of takrar taktas during the year under report, 831 cases came up for disposal and 528 cases were disposed of against 282 in the previous year. The pendency however continues to be heavy in the districts of Mysore, Bangalore and Tumkur.

5. *Demand, Collection and Balance.*—The total demand for the year including arrears amounted to Rs. 4,24,556-0-11, of which a sum of Rs. 2,14,304-11-8 (inclusive of remission) was collected during the year. There has been no improvement in the collections and the arrears continue to remain at the same level as in the previous year. The time-barred arrears have increased from Rs. 24,133 at the end of 1936-37 to Rs. 27,748, the largest amounts being in the Bangalore and Shimoga Districts. The attention of the Deputy Commissioners of Districts is again invited to the observations made in the last year's review that they should see that due notice is taken of the conduct of officers whose indifference results in loss of revenue to Government. It is noted that there was some activity in regard to the village improvement scheme, five well works, four road works and one school building having been carried out. But the progress achieved is not adequate and it is hoped that the scheme will receive greater attention during the current year and substantial improvement secured.

**Reviews the report on the working of the Treasuries in the State during the year 1937-38.**

READ—

Letter No. C. Per. A. 7—[illegible] dated 14th November 1938, from the Revenue Commissioner in Mysore, forwarding with his remarks, the Comptroller's report on the working of the Treasuries in the State during the year 1937-38.

ORDER No. R. 2719-29—R. M. 37-38-2, DATED BANGALORE, 5TH DECEMBER 1938.

Recorded.

2. *Monthly Accounts and Annual Returns.*—In spite of observations made in the previous years' reports, delays in the submission of these accounts have not been minimised and the delays in the Bangalore District are abnormal. The Revenue Commissioner is requested to look into a few typical cases and obtain the explanation of the officers concerned to deal with them suitably so that such delays may not recur in future.

3. *Classification of Receipts and Payments and Objection Slips.* The number of misclassifications in the Treasury accounts and the retrenchment slips has increased from 109 and 1,753 in 1936-37 to 145 and 2,208 respectively, thus indicating a set back in improvement. It is hoped that better care will be exercised in the treasuries and that misclassifications avoided as far as possible.

4. *Irregularities in Payments.*—Irregularities in payments still continue although there is a slight improvement. It is reported that the Deputy Commissioners concerned have been requested to take due notice of the conduct of the officials responsible for these irregularities. Government trust that the action taken will produce the desired effect and the irregularities will be reduced to a minimum.

5. *Inspections.*—Four district and nine taluk treasuries were inspected by the Officers of the Accounts Department. The Deputy Commissioners inspected 61 taluk treasuries during the year under report against 59 taluk treasuries in the previous year, the number of taluk treasuries inspected by the Deputy Commissioner, Bangalore District, being the lowest.

6. *Important Measures sanctioned during the Year.*—Two taluk treasuries were opened, one at French-Rocks and the other at Turuvekere, consequent on the conversion of the respective sub-taluks into taluks.

2. The number of mining leases, licenses and certificates of approval for gold, chromite, manganese, kaolin, magnesite, etc., current during the year was 127 (111) and the total area covered by them was about 72,323 acres (61,508).

3. *Special Prospecting License for Gold and Silver.*—The Indian Mines Development Syndicate, Ltd., surrendered, during the year, the special license held by them relinquishing thereby an area of 2,360 square miles covered by the license as the geophysical survey and prospecting operations conducted by them in the Manighatta area failed to indicate the presence of any mineral values of economic importance.

4. With a view to find out the lateral and downward extensions of the chrome ore bodies in the several sections of the Byrapur chrome mines, the work done there during the year was mostly of an exploratory nature and the results so far obtained are stated to be encouraging. Out of the 320·5 tons of graphite mined at Ganacharpur, 216·08 tons were supplied to the Mysore Iron and Steel Works and a small quantity of 5 tons to the Slate Pencil Factory at Bowringpet. Twenty-four tons of 'B' grade kaolin were supplied to the Government Porcelain Factory. A total quantity of about 48 tons of asbestos was supplied to the Mysore Iron and Steel Works, the Mysore Paper Mills and the Sandalwood Oil Factory at Mysore. The Mysore Iron and Steel Works mined 34,105 tons of iron ore, 441 tons of manganese ore, 10,912 tons of limestone and 1,600 tons of dolomite.

5. *Mineral Survey.*—The following areas comprising about 200 square miles were surveyed for special purposes:—

(i) A strip of country of about 60 square miles between Koppa and Tirthahalli was surveyed in detail to locate all the noticeable minerals of the region. In addition to kaolin, which forms the main economic mineral of the region, corundum, kyanite, beryl, tourmaline, garnet, mica and vein quartz were located at several places.

(ii) An area of about 50 square miles was surveyed in the Chitaldrug, Hiriyur and Hosdurga Taluks in connection with the location of pyritiferous schists.

(iii) An area of 70 square miles was surveyed near Bageshpur, Arsikere Taluk, and the occurrence of Graphite, Garnet, Muscovite and Copper, in addition to kaolin and corundum, has been located.

6. *Geological Survey.*—An area aggregating about 100 square miles was surveyed and mapped in detail. In addition, the following investigations were conducted by the department :—

(i) A small area around Ganacharpur, Bowringpet Taluk, was surveyed to study in detail the origin of the graphitic rocks found therein.

(ii) An area of 10 square miles in the Hole-Narsipur schist belt was examined to study the structural and metamorphic features of the rock formations.

(iii) An area of 8 square miles in the neighbourhood of Marconahalli, Nagamangala Taluk, was carefully surveyed to study the nature and origin of the banded gneisses.

7. *Geophysical Survey.*—The department conducted, during the year, some experiments by geophysical methods of survey to locate water tables in certain parts of Bangalore. Orders were issued for the purchase of necessary appliances to conduct prospecting operations by geophysical methods. The Director of Geology proposes to undertake, during the year 1938-39, the investigation by the above methods on the mineralised schists near Chitaldrug.

8. The work of the department continued to be satisfactory.

*Inclusive of the previous year's balance.

The schemes that were undertaken by the mining authorities last year for improving the working conditions at the bottom levels of the Champion Reef and the Oorgaum Mines, the two deepest mines of the Kolar Gold Fields, are reported to be nearing completion. In spite of all the arrangements made to reduce the heat in the mines, the air temperatures are still high and the working conditions enervating. There were 23 cases of heat exhaustion during the year against 22 in the previous year. The deepest workings on the Kolar Gold Fields are over 8,200 ft. vertically below field datum and the rock temperature at this depth was about 134° F.

3. *Mining Labour.*—The total number of persons employed in the mining industry in 1937 was 26,666 (24,581). Of this number, 24,239 were employed in gold mining. There was no change in the general working hours underground or on surface. It is gratifying to note that the mining authorities continued to bestow their attention to the improvement of the living conditions of, and the provision of additional social amenities for, the workmen on the Kolar Gold Fields.

4. *Mining Accidents.*—The total number of accidents reported during the year was 223 (244). Of these accidents, 42 were fatal, 176 serious and 5 non-mining. The total number of fatal and serious accidents was therefore 218, which works out to the rate of 8.18 per 1000 persons employed against 9·76 in the previous year. Though there has been a gradual decrease in the total number of accidents, the percentage of accidents due to negligence and recklessness was 17·89 per cent during the year as against 15·69 per cent in 1935 and 16.66 per cent in 1936. Accidents from such causes would not have occurred if the individuals concerned had taken due care in carrying out the work entrusted to them. Government trust that continued education of the workmen in safety principles, and stricter enforcement of the rules will help to minimise the occurrence of such accidents in future. In the 42 total accidents, 49 persons were either killed or they died as a result of injuries received, giving a mortality of 1·84 per 1000 persons employed against 2·44 per 1000 in 1936. Thirteen accidents due to rockbursts accounted for 19 deaths against 11 and 20, respectively, during the previous year.

During the year, 126 claims for compensation comprising 53 fatal, 3 permanent total disablement and 70 permanent partial disablement arose from accidents in the mines on the Kolar Gold Fields and the compensation awarded under all the above heads amounted to Rs. 70,986 (Rs. 69,658). Besides the above, compensation amounting to Rs. 29,088 was paid in cases of temporary disablement.

5. *Explosives Sections.*—During the year, 807 licenses (8 by Government and 799 by District Magistrates) were granted under the Mysore Explosives Rules against 922 during 1936. The total number of inspections of explosives premises carried out during the year by the Magistrates and Police Officers was 874 (582). This increase is stated to be due to the same premises in towns being inspected more than once in the year. A large number of premises in the interior is reported to have been left uninspected which is not satisfactory. The percentage of licensed premises inspected in all the districts was only 32·49 per cent as compared with 50·30 per cent in the previous year. The fall is noticeable in all the districts and the percentage in inspections is very low in the districts of Bangalore, Tumkur and Hassan. Government regret to note that, in spite of orders issued from time to time, there has been no improvement in this direction. The District Magistrates and the Inspector-General of Police are, therefore, requested to issue strict instructions to the concerned officers in regard to these inspections and take suitable notice of any neglience in this respect. There were 50 accidents due to explosives resulting in the death of 16 persons and injuries to 60 others against 41, 18 and 54, respectively, in the preceding year. Of the 50 accidents, 12 occurred on the Kolar Gold Fields resulting in the death of 7 persons and serious injuries to 15 others. Drilling into or intersecting sockets were the chief cause of these accidents and necessary action is stated to have been taken against persons responsible.

6. *Petroleum.*—During the year 174 (154) licenses were issued under the Mysore Petroleum Rules. The total quantities of dangerous petroleum and kerosene imported into the State during the calendar year 1937, were 2,535,378 gallons and 3,956,640 gallons, respectively, against 2,068,789 gallons and 3,858,118 gallons during 1936.

7. *Carbide of Calcium Rules.*—Five licenses were granted under the Carbide of Calcium Rules.

8. *Conclusion.*—The work of the department during the year was satisfactory.

The total expenditure under all heads amounted to Rs. 9,10,425 as against Rs. 14,87,698 in the previous year. ## ANNEXURE.

**Report on the progress of work done in the villages selected for concentrated propaganda for Rural Welfare Work in the State during the half-year ended 30th June 1938.**

The number of villages selected for intensive work was 191 as in the previous half-year. Two villages in the Mysore District were removed from the list as the Village Panchayets concerned were negligent in attending to improvement works and in their stead two new villages were selected as noted in the margin. The programmes already drawn up were generally adhered to. The reports received from the Deputy Commissioners enumerate in detail the improvements effected in each of the selected villages. The following is an abstract of the more important improvements done.

| Taluk | Names of villages removed | Names of villages selected |
|---|---|---|
| Maddur | 1. Sonnanahalli<br>2. Nidaghatta | 1. Kadalur<br>2. Vaidyanathapur |

### I. Revenue Department.

(*i*) *Raising the Standard of Village Panchayet Administration.*—The selected panchayets are reported to be taking interest in managing their local affairs satisfactorily. Most of them maintained the prescribed accounts, held monthly meetings and collected their taxes fairly regularly, besides attending to the ordinary village improvement works by communal labour.

(*ii*) *Water Supply.*—It is reported that there is good drinking water for men and cattle generally in almost all the selected villages. Besides effecting minor repairs and improvements to the existing sources of water-supply, action was taken to provide additional water-supply facilities in some villages as noted below:—

(1) A well was completed at a cost of Rs. 400 in Mattikere village, Channapatna Taluk.

(2) Separate wells were sunk (i) for the use of Adikarnatakas in Chilkalnerpu, Chintamani Taluk, Vajamangala in Mysore Taluk, Hirisave in Channarayapatna Taluk, (ii) for the use of the Mahomedans in Thavarekere village, Channagiri Taluk and (iii) for the use of Banajars in Salur village, Shikarpur Taluk.

(3) Bore-wells have been sunk in the marginally noted villages. Pumps have been fitted to the bore-wells at Yediyur, Bangalore Taluk and Anandapuram, Sagar Taluk. The question of putting up pumps to the wells at Antharsanthe and Chinkurli is under consideration. At Arasalu, water is being supplied through taps.

I have the honor to state that during 1938, there will be held two Kumbh fairs—one at Haridwar and the other at Brindaban. The former will last from February 1 to April 30, 1938, the principal days falling on February 28, March 31 and Kumbh, the chief day, on April 13, 1938. The gathering on the chief day is estimated at about 10 lakhs. A large number of pilgrims, who will visit Haridwar will also visit Rishikesh and the famous shrines at Kedar Nath and Badri Nath on the pilgrim route in the District of Garhwal. The Kumbh fair at Brindaban will be held from February 1 to March 21, 1938, March 12 being the chief day. The gathering on the chief day is estimated at about 3 lakhs.

As the above Melas are of an all, India importance, pilgrims are expected to arrive from other provinces as well. In order to check the importation of cholera into the Mela area

and its spread, I am proposing to establish posts for the medical inspection of pilgrims at certain railway stations and roads leading to the fair areas. It is requested that necessary information in regard to these fairs may be given to the other Provinces and States concerned.

## LOCAL SELF-GOVERNMENT SECRETARIAT

*No. G. 7814—P. H. 18-37-13, dated 26th March* 1938.

The following notification issued by the Chief Commissioner of Coorg about the Plague Regulations in force in Coorg is hereby published for general information :—

By Order,
P. H. KRISHNA RAO,
*Secretary to Government,*
*Local Self-Government Department.*

### THE CHIEF COMMISSIONER OF COORG.

**Notification.**

*Bangalore, the 1st December* 1937.

**Plague Regulations in Force in Coorg.**

*No. 198.* Whereas the Chief Commissioner is satisfied that certain parts of the Province of Coorg are visited by, and other parts are threatened with, an outbreak of the dangerous disease known as plague;

And whereas the ordinary provisions of the law for the time being in force in the said Province are insufficient to prevent the outbreak of such disease or the spread thereof;

Now therefore in exercise of the powers conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), and in supersession of the regulations issued with his notification No. 114, dated the 19th July 1927, as subsequently amended, the Chief Commissioner is hereby pleased to prescribe the following temporary regulations to be observed throughout the said Province for a period of one year from the 1st December 1937.

*General Organisation.*

1. The general supervision of the arrangements for dealing with plague in Coorg is vested in the Commissioner, under the control of, and subject to report in all important matters to the Chief Commissioner. The Commissioner shall have authority to depute, either generally or specially, to the Assistant Commissioners or any other person, any powers which may under this Regulation, be exercised by him: provided that any such delegation shall at once be reported to the Chief Commissioner.

2. The Commissioner may in cases of emergency issue such orders relating to matters not specifically dealt with herein as may appear necessary, provided that they do not conflict with the general principles of these rules.

3. Subject to the general control of the Commissioner, the Civil Surgeon, as chief Health Officer of the Province is directly responsible for the conduct of purely medical arrangements in connection with plague.

4. The term "Medical Officer" in these rules means and includes—

(*a*) the Civil Surgeon,
(*b*) the Civil Assistant Surgeon, Virajpet or Sub-Assistant Surgeon in charge of a Government or District Board Dispensary or Hospital, or detailed for special plague duty by the Civil Surgeon,
(c) the Sanitary Inspector of Coorg,
(*d*) any other person appointed by the Chief Commissioner to be a Medical Officer for the purposes of these rules.

5. Any orders issued or action taken of special importance or general application by any person exercising authority under these rules shall be immediately reported to the Commissioner.

6. A copy of any general orders issued by the Commissioner to the Civil Surgeon, Assistant Commissioners or other person so empowered under rule 1 shall immediately be sent to the Chief Commissioner.

7. A report of any outbreak of plague shall be sent without delay by the Civil Surgeon to the Commissioner, who will report the same to the Chief Commissioner

Until it can be formally certified that plague has disappeared from Coorg, weekly reports and monthly statements in the prescribed form shall be sent by the Civil Surgeon to the Commissioner who will report the same to the Chief Commissioner.

*Precautions against the importation of plague.*

8. The Heads of villages are empowered to prevent the entrance of strangers (other than Government officers) from infected parts into their villages for a period of ten days, and any person attempting to enter any such village after being warned against such entry will render himself liable to be dealt with under Rule 22 *infra.*

9. Patels and all Government officials, not being local authorities, shall report to the nearest local authority the arrival of any person known to have come from an infected area as soon as possible. By local authority is meant—

(*a*) Medical Officer,
(*b*) if there be no Medical Officer, the Nad Parpattigar,
(*c*) if there be no Medical Officer or Nad Parpattigar, the Station House Officer,
(*d*) in the case of coffee, rubber, pepper, or other estates of 50 acres or more, the estate owner, superintendent or agent,
(*e*) the village patel in default of (a), (b), (c) and (d).

10. If the report be made to a Medical Officer, he shall arrange to observe such person in such manner as the Civil Surgeon may by rule prescribe: Provided that no gosha female shall be required to present herself for inspection but that she may be examined at her residence by a female deputed for the purpose by a local authority.

If the report be made to a Parpattigar, Station House Officer, estate owner, superintendent or agent or village patel, he shall keep such person under such observation as may be possible for ten days, and shall report to the nearest Medical Officer with the least possible delay any cases of high fever with glandular swellings or other suspicious symptoms which the person under observation may develop.

11. All persons entering Coorg from an area suspected to be infected with plague may be required to be inoculated against plague and to expose all their belongings to the sun either at the boundary of Coorg or at any other place appointed by the Commissioner and they may be required to obtain certificates showing that the same has been carried out before being allowed to proceed further into Coorg.

In the case of persons leaving an infected area in Coorg, such persons, may, before leaving the infected area, be required (1) to obtain a certificate certifying that they themselves and all members of their household have been inoculated against plague, and (2) to expose their belongings at the place and for the time appointed by the Medical Officer.

12. (a) It shall be the duty of every person to report to the nearest village patel or one of the officers of the Health Department or Dispensary or to the Civil Surgeon, the occurrence of any mortality among rats or a case of plague or of high fever with glandular swellings or other suspicious symptoms in any household.

(b) Every estate owner, superintendent or agent shall report at once to the nearest Medical Officer, Parpattigar or Station House Officer, the occurrence of any mortality among rats on the estate, as well as the occurrence of a case of plague or of high fever with glandular swellings or of unusual sickness among the coolies or others employed on the estate under his charge or in his possession.

13. When the local authority is not a Medical Officer, he shall at once communicate to the nearest Medical Officer and to such other officer as the Commissioner may direct, any report made to him under Rule 12 *supra* or any information otherwise received: and if he be a patel he shall also report to the Parpattigar.

*Rules relating to municipalities and villages.*

14. When any building or place within a Municipality, notified area or village is in an infectious state by reason of dead rats being found therein or when in any building or place within such localities there is, or there is good reason to believe that there may be, a person suffering or suspected to be suffering from plague, or to have so lately suffered as to be in an infectious state or likely from recent contact with plague cases to be in an infectious state, the Commissioner, or subject to the Commissioner's control, the Civil Surgeon, or any plague officer appointed generally or specially by the Commissioner in this behalf, may inspect such person and building or place and take any such action as is herein below described.

(a) Patients:—

(ii) take measures for segregating and detaining such person in his own house or in some other suitable place if, in the opinion of the Commissioner, the place is such that he can be segregated therein without great risk of spreading the infection;

(b) Contacts:—

If he considers it necessary, and when the infection is confined to so small an area that contacts can be accurately known, he may remove any person or persons living or found to be in the building or place either for detention and observation in a place appointed for this purpose, or to facilitate the disinfection of the premises;

(c) Infected buildings:—

No person segregated or detained under this rule shall leave the place of segregation or detention except with the permission of the officer in charge.

Provided that:—

No person suffering from plague, or from any other disease whose death appears to be imminent shall be removed from his house, except at the desire of himself or his relatives.

(e) Costs:—

The cost of all anti-plague measures under these Regulations shall be borne by Government.

15. Patients suffering from plague who or whose relations object to the use of English medicine shall be permitted to avail themselves of the services of native practitioners.

16. Any building or place which is required for and is in the opinion of the Civil Surgeon or the Medical Officer deputed by him in this behalf, suitable for the accommodation of persons suffering from plague or of those who have been in contact with them, may be entered upon and occupied by the Commissioner (if untenanted, without any notice whatsoever and, if tenanted after 24 hours' notice in writing conspicuously posted on such house or building) and may be used for the purposes of such accommodation, and the owner or lessee of such building or place shall not be entitled to anything beyond a reasonable rent for the period during which the ground or building may remain in the occupation of the Commissioner: provided that the Commissioner shall be bound, thoroughly to cleanse and disinfect the ground or building and, in the case of buildings also to whitewash it internally and externally before vacating it.

17. The Commissioner may empower any officer in a town, village or area to inquire from any householder or head of a family, regarding the health of the household, or regarding arrivals at and departure from the household, or to see any person, except a gosha female in the household, and such householder or head of a family shall be bound to answer truly the questions asked him by any such officer.

18. The bodies of persons who have died of plague which are to be disposed of by burial, shall be buried in graves six feet deep and four feet apart, in places well away from habitations and sources of water supply, and the Commissioner shall have power to appoint places for their burial and to prohibit their burial in any place not so prescribed. In cases in which bodies are burnt, this shall be completely done in an isolated locality. The expense in the case of persons who have died of plague whose relatives are unable to pay for their proper disposal may be, by order of Commissioner, paid out of plague funds.

19. In an infected area, the Commissioner or a Medical Officer with the previous sanction of the Commissioner, may order the evacuation of infected houses and houses in their neighbourhood, or generally of an infected locality:

Provided that, before issuing or authorising an order for compulsory evacuation, the Commissioner shall either provide adequate and suitable shelter within reasonable distance for the persons evicted, together with the necessary water supply and arrangements for watch and ward or shall satisfy himself that such shelter and water supply have been provided. The Commissioner shall also satisfy himself that the compulsory evacuation is necessary to avert the further spread of the disease, or is in the interests of the affected population, taking account of climatic conditions.

The Commissioner may require all persons who evacuate their houses voluntarily, or are evicted under this regulation, to reside in such place as he may appoint.

If the Commissioner is of opinion that the destruction of any hut or shed is necessary to prevent the spread of plague, he may take summary measures for the destruction of such hut or shed and of the materials of which it is constructed.

The Commissioner or any other person authorised by him in his behalf may direct that any building or place shall be inspected and disinfected and that all rats found thereon shall be destroyed, and he may, to facilitate the same, order the temporary removal of any articles from such premises.

20. In an infected area or in a district adjoining an infected area, the Commissioner may close any existing market and may appoint special places where markets may be held and may prescribe limits beyond which it shall not be lawful for persons bringing articles for sale from or to an infected area to pass.

21. The Commissioner may direct that at any place in his district any consignment of grain or other produce or merchandise or goods being conveyed by road or otherwise, shall be examined, and shall, if necessary, be unloaded and exposed to the sun in such manner and for such period as he may fix.

22. Any person disobeying or contravening or refusing to submit himself to any regulation made under the Epidemic Diseases Act, 1897, or obstructing any measure which has been taken by Government, or which any authority or officer appointed under competent authority to carry out such regulation has been required or empowered to take under any such regulation, shall be deemed to have committed an offence punishable under Section 188 of the Indian Penal Code, and shall be liable on conviction to imprisonment of either description for a term which may extend to six months, or fine which may extend to one thousand rupees or both.
